Defendants.	(	

All defendants hereby move to extend the time for moving or pleading to the complaint through Tuesday, October 30, 2012, because the parties are very close to permanently resolving the suit by agreement. If that succeeds, they will file with the Court stipulation of dismissal with prejudice.

The settlement would not be monetary, but contingent upon certain events, so the parties ask that the Court refrain from a *sua sponte* dismissal despite this motion's notice that settlement appears to be imminent. The plaintiffs do not object to this motion.

Respectfully submitted,
